

What the Exterminator Does

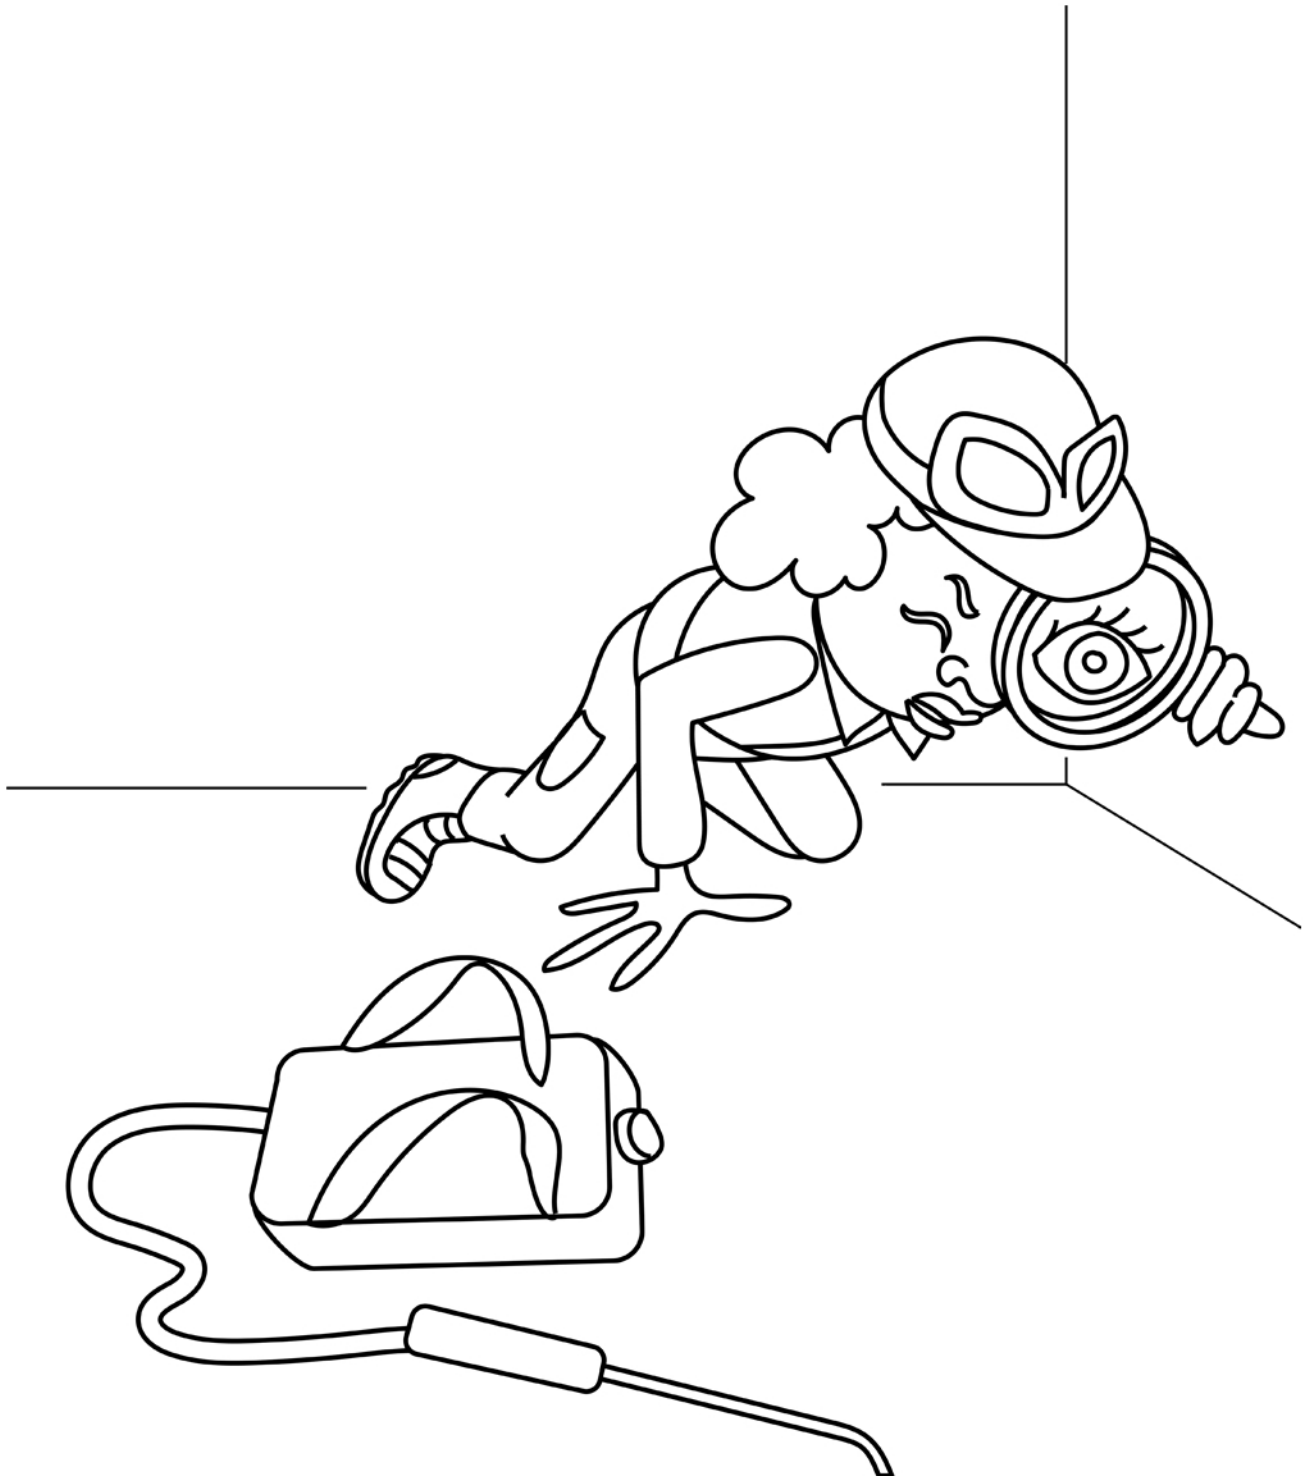

Coloring Book

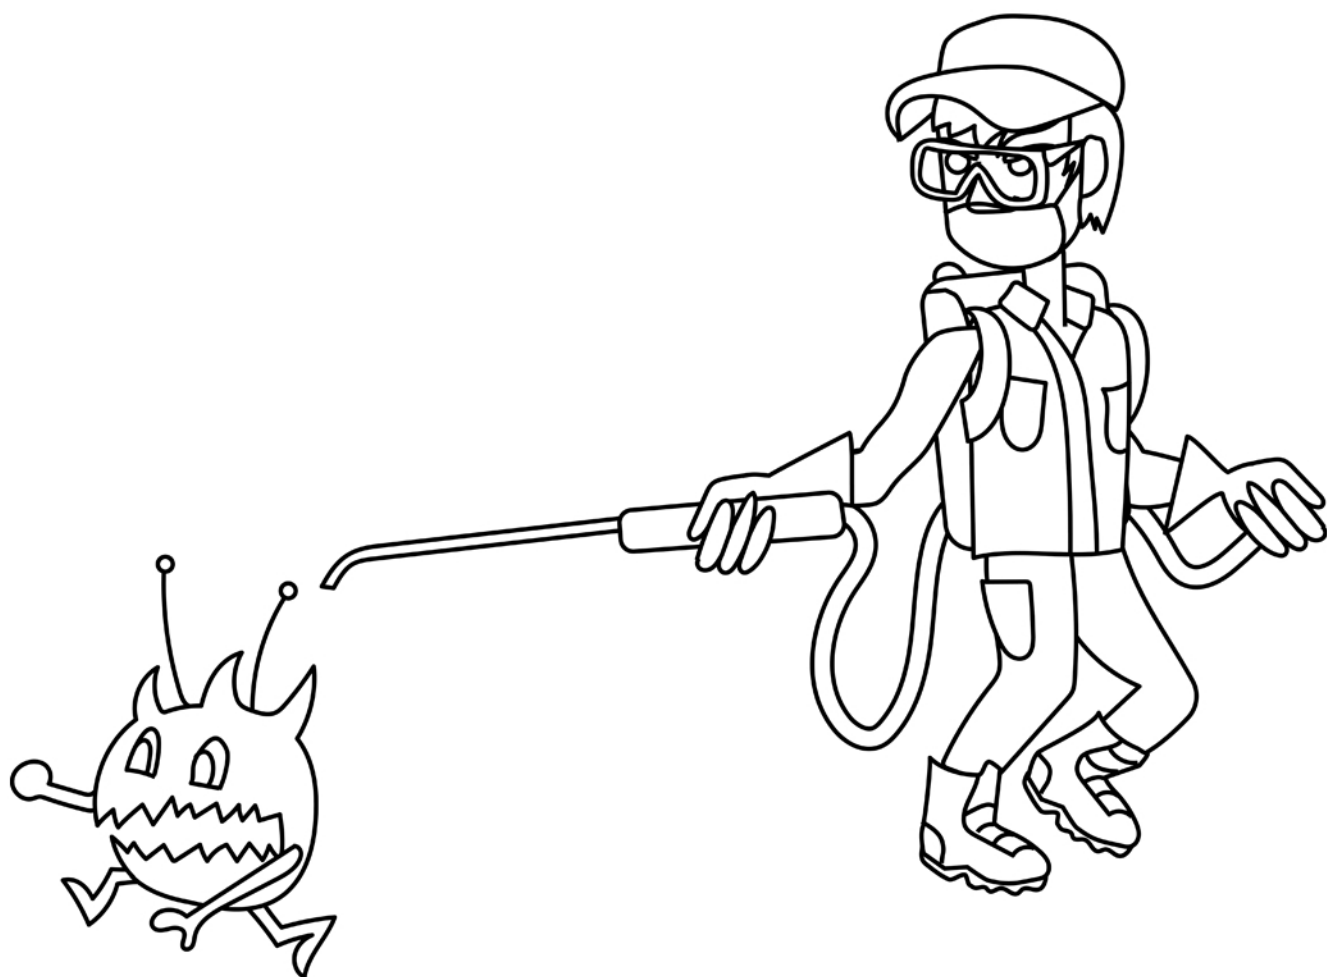

People hire exterminators to help get rid of harmful bugs and other household pests.

**The exterminator First Finds the
pests and Figures out what kind
of creatures they are.**

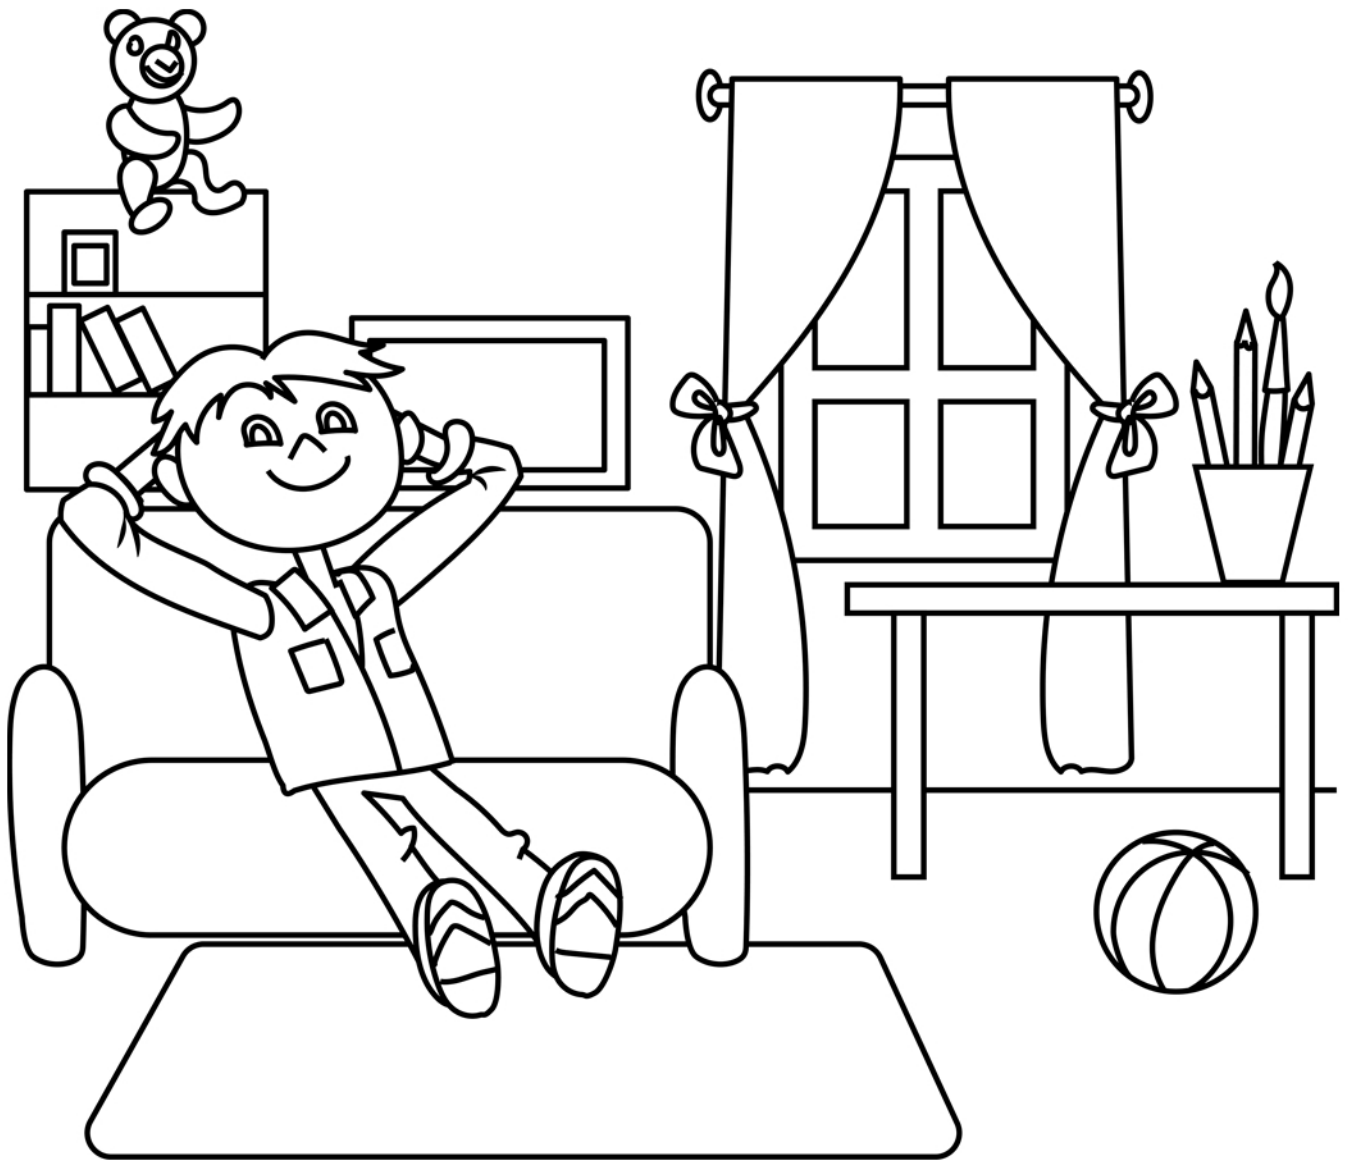

Then the exterminator gets rid of the pests by killing them or moving them away from your house.

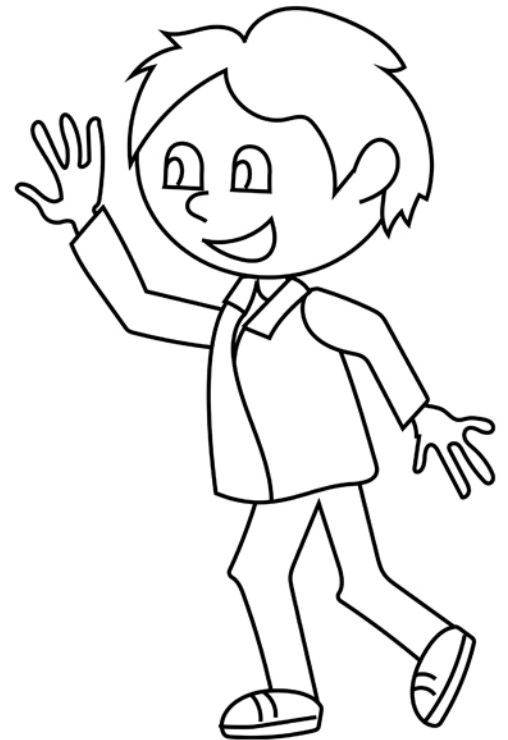

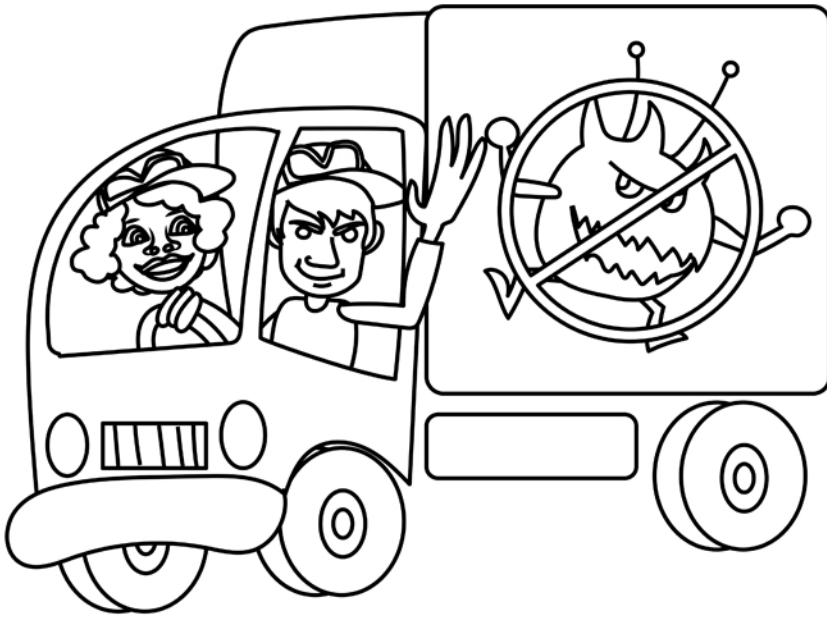

on the day the exterminator arrives, you may need to leave your house for a while so they can do their work.

**When you come back home,
most of the pests will be gone.**

**But keeping pests away From
now on is partly going to
depend on you.**

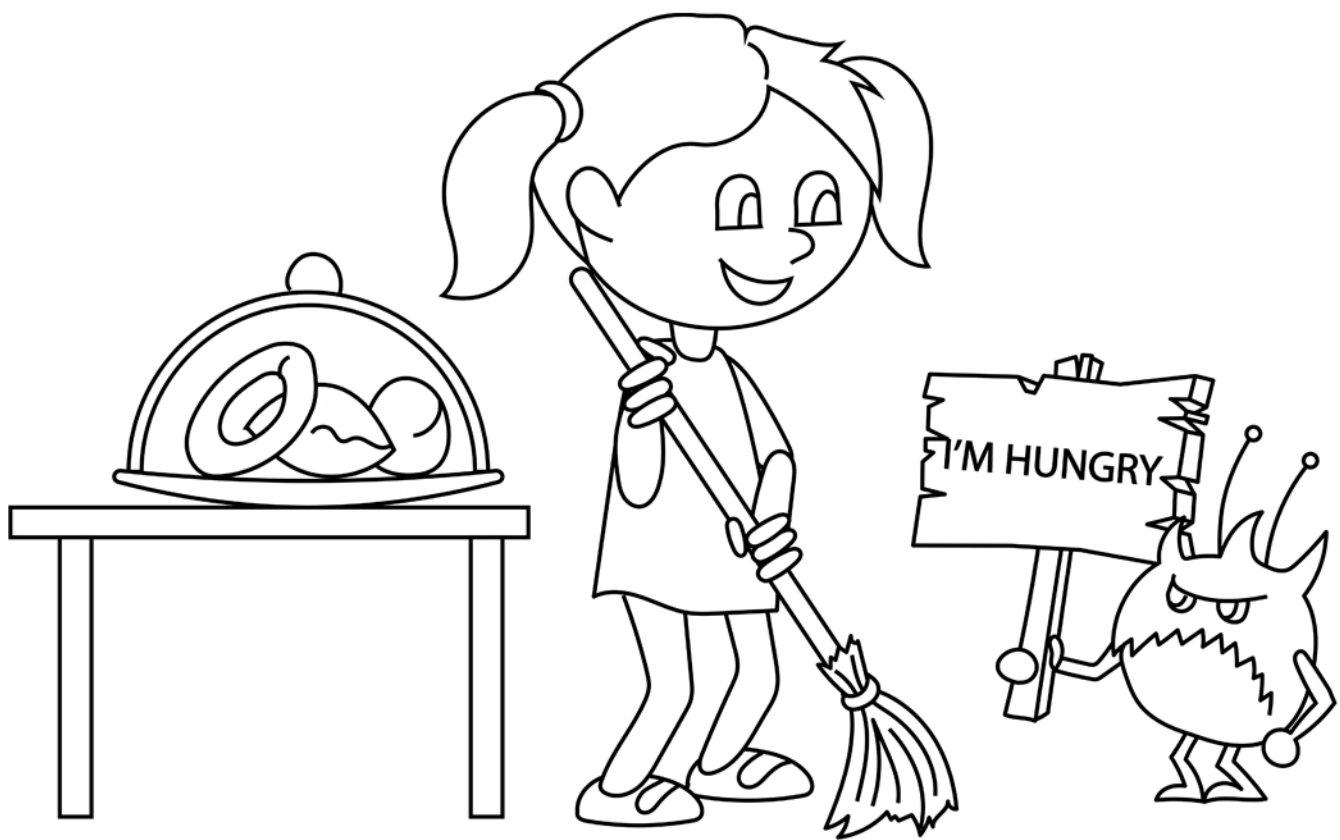

You may need to stay away From certain areas of your house For a while.

And wait For a while before touching certain things.

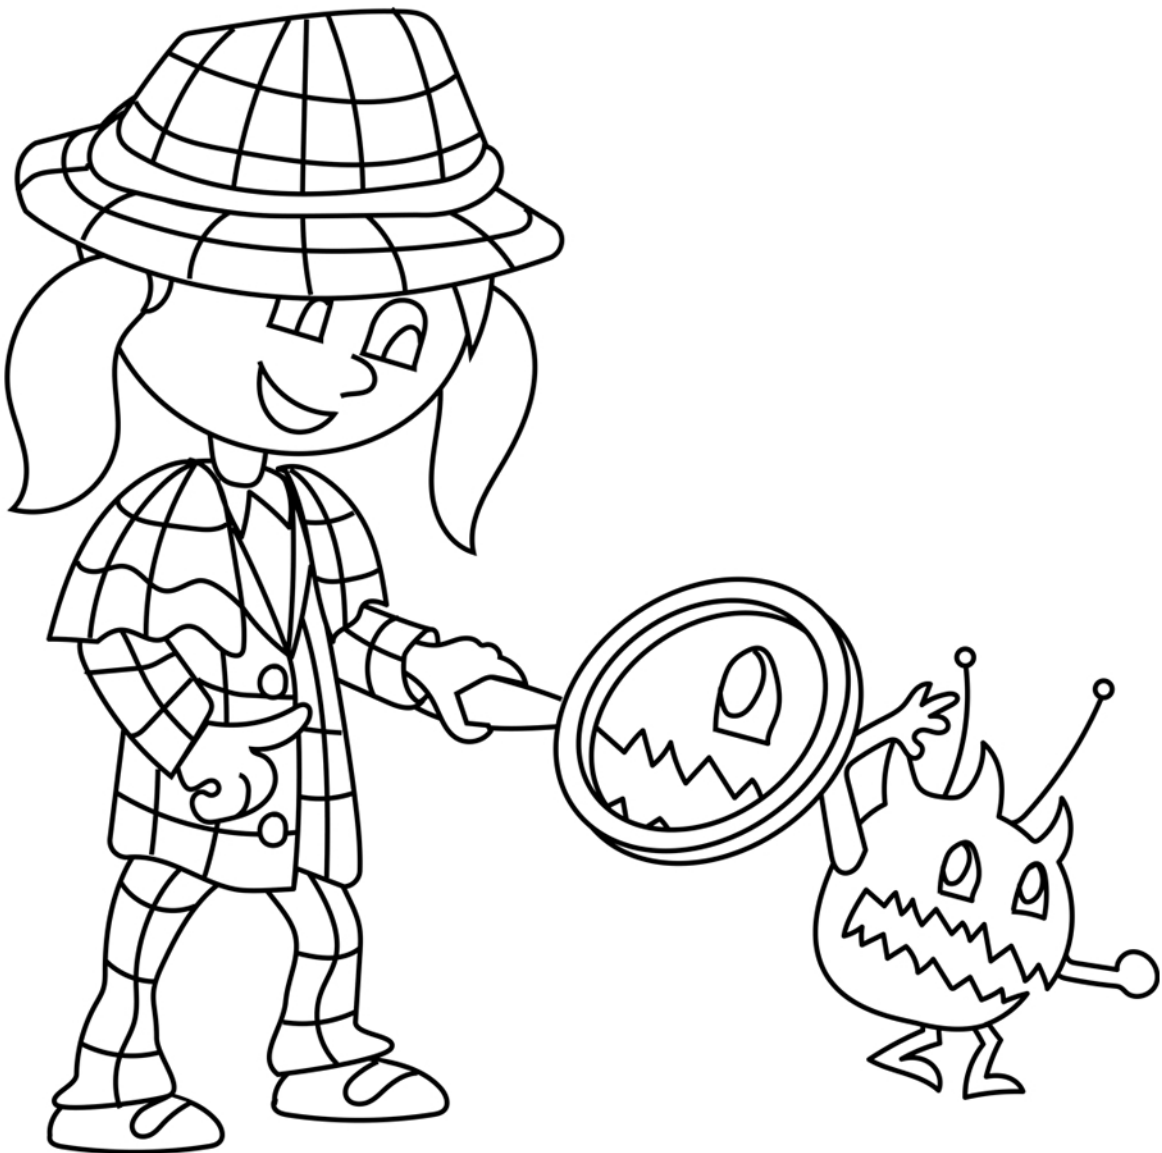

You may need to keep certain areas of your house like your room, tidy and free of food and crumbs that pests like to eat.

You may need to pitch in on certain chores, like keeping trash can lids closed tight.

And You may need to keep an eye out For trouble, letting Your parents know right away iF You spot another pest.

**Because a pest-free house is important,
And with your help, the exterminator
will keep it that way!**
